

Managed InfoSec Services

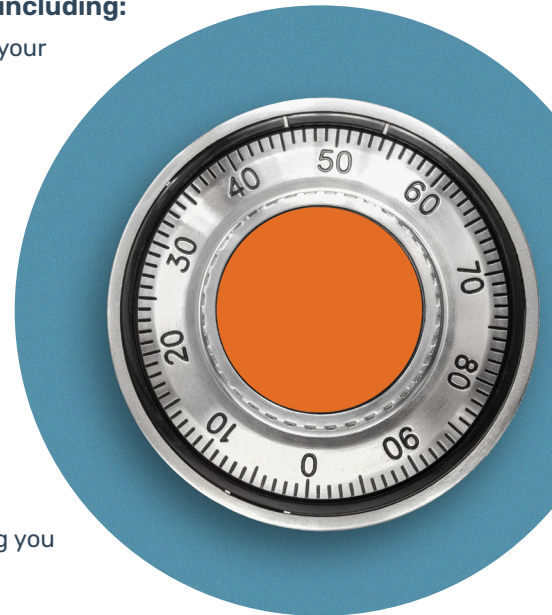

Here's a reality check: since 2020, cyberattacks have doubled, and by 2027, cybercrime is projected to cost the world a staggering \$23 trillion!¹ As cyber threats grow more frequent and damaging, protecting your business is no longer optional; it's essential.

At INT, we understand that InfoSec can be complex, especially if you're short on time, resources, or in-house expertise. That's where our Managed InfoSec Service comes in, simplifying security program management with a comprehensive suite of services designed to shield your business from bad actors.

Our Services

Our managed InfoSec services deliver end-to-end protection and resilience, including:

- **Network Vulnerability Scans:** Routine scans to pinpoint and address weaknesses in your network before attackers can exploit them.
- **Security Awareness Training:** Arm your team with the know-how to outsmart cyber threats. After all - an aware team is your first line of defense.
- **Recurring Tabletop Exercises:** Regular lessons and practice scenarios to prepare your team for real-life security events, ensuring quick and effective responses.
- **Password Vault:** Forget the sticky notes and memory lapses. Our password vault keeps all your credentials secure and at your fingertips, so you can focus on the important stuff, like running your business.
- **Threat Detection & Incident Response:** Proactive threat monitoring and rapid response to any incidents, mitigating risk and keeping you informed.
- **Application License Procurement:** Leave the software licensing maze to us. We'll navigate it like pros, ensuring you have the right licenses for all your apps while saving you the headache.

Your Frontline Defense

From phishing and ransomware to social engineering, INT stands as your first line of defense against evolving threats. We bring proactive, adaptable solutions that don't just protect your data—they keep your business resilient. Our expert team stays on top of the latest InfoSec strategies to ensure your operations are secure, saving you from sleepless nights worrying about your data's safety.

Focus on What You Do Best

With INT managing your InfoSec needs, you can focus on your core business goals, knowing that our team is working behind the scenes to keep your data, your team, and your clients safe. Let us take the lead on security so you can move forward confidently, knowing your business is in expert hands.
